

# WILSON'S NAME WAS CHEERED BY BRITISH LABORITES

Five-Minute Demonstration as Peace Is  
Mentioned at Conference in  
Manchester.

Manchester, England, Jan. 24.—President Wilson's name, mentioned by G. J. Warder in opening the conference of the British Labor party here yesterday, was cheered for five noisy minutes. The ovation was spontaneous, the presiding officer making only the briefest reference to the American peace suggestions. The action of Messrs. Henderson,

Hodge and Barnes of the Labor party in joining Premier Lloyd George in the formation of a reconstructed government was overwhelmingly approved by the convention. This action was taken despite the fact that such co-operation with other political parties is constructive in violation of the Labor party tenets. There were two factors which com-

bined to make the meeting of tense interest through England. First, the party was expected to go on record regarding the peace propaganda. Secondly, the party was scheduled to make sweeping pronouncements on various post-war problems. Great Britain expects labor, in its official party, to favor a fight to a finish and to defeat by a large majority the plans of any pacifists who may be backing the resolutions urging the opening of peace negotiations.

## DANIELS PLANS FOR U. S. STEEL PLANT

Hadfields' Bid for Projectile Contract Inspires the Move, Secretary Said Yesterday.

Washington, Jan. 24.—A federal steel plant to supply wholly or in part the needs of the United States navy, is "under consideration" by the navy department, Sec. Daniels said yesterday. The recent pronounced underbidding of Hadfields, a British munitions concern, in open competition with American firms for the supply of armor piercing projectiles for the navy, is understood to have impressed the department with the need for a federal steel plant.

## ATTACK WILSON LOBBYING

Senator Jones Objects to  
His Visits to the  
Capitol

NO NEED OF  
EXTRA SESSION

Caucus Thursday Night—  
Bills to Be Held Up  
Not Yet Known

Washington, Jan. 24.—President Wilson's plan to visit the capitol frequently, urging action on his legislation program was attacked yesterday by Senator Jones, Republican, who declared it indicated a course of "systematic lobbying" by the president.

Senator Jones said he did not wish to introduce any resolution at this time, although he thought the matter should invite "the careful consideration" of the Senate. He spoke, he said, "in view of the notice in the newspapers this morning that the chief executive of our country proposes to carry on a systematic and continued system of lobbying in connection with legislation now pending before the Senate."

The senator's remarks led to no debate. President Wilson now sees no prospect for an extra session of Congress. He told callers yesterday that he planned to go to the capitol frequently to co-operate in speeding up legislation.

Senator Kern at the suggestion of the steering committee, called a caucus for Thursday night to pass on a tentative program which includes railroad labor legislation, a corrupt practices bill and the Webb bill to permit domestic corporations to maintain foreign selling agencies. What bills the committee proposes to hold up have not been disclosed.

## 462 CASUALTIES IN LONDON EXPLOSION

Total to Date Includes 69 Killed, 72  
Seriously Injured—List  
Thought Complete.

London, Jan. 24.—The casualties to date in last Friday night's explosion were officially announced yesterday to comprise 69 killed, 72 seriously injured and 328 slightly injured. This, it is stated, is believed to comprise the complete list.

The official announcement follows: "It is hoped that all known to have been in the various factories and dwelling houses affected by the recent explosion in East London are now accounted for. At the time of the outbreak the number working in the explosives factory was: Men, 39; women, 10. Believed safe of these: Men, 18; women, 9. Total known casualties at 10 o'clock this morning were: Killed, Men, 44; women, 11; children, 14; total, 69. Seriously injured: Men, 19; women, 34; children, 19; total, 72. Slightly injured: Men, 155; women, 102; children, 71; total, 328. "The site of the explosion has now been thoroughly explored, and although some cases of persons lying seriously injured in hospitals may yet prove fatal, it is believed the list above given is complete."

### GODDARD OUTPLAYED.

No Match for Canadian Hockey Club of  
Barre; Score 5 to 0.

The Canadian Hockey club of Barre won its first victory of the season over the Goddard seminary seven by a score of 5 to 0 in a listless game before a large crowd of hockey enthusiasts at Buzzell's rink last evening.

Inability on the part of the Goddard skaters to follow the puck and the faster skating of the Hockey club men played a big part in Goddard's downfall. While the winners displayed no teamwork, their fast skating kept the puck in Goddard's territory continually throughout the game, they bombarding the Goddard goal from the first minute of play until the end and keeping goal tender Carr blocking mile a minute drives until his club was nearly worn out. Carr was the shining light on the Goddard team by far, and without his offensive playing the score would undoubtedly have been tripled.

During the first period neither team could push the puck through for a goal, although Goddard was continually playing a defensive game. In this period Haskett and Bartlett were put out of the game for three minutes for tripping and Willey was put out for five minutes for rough work. In the second half, the Canadian club came back with the same fast work and played Goddard of its feet, Arthur Boyea shooting through the first pointer after about four minutes of play; Mann following closely with another; and from then on, it was a matter of how many Carr could keep out of the goal. The entire Canadian team displayed some fast skating. Arthur Boyea, Mann and Willey seemed to follow the puck with the greater skill, although with a little practice, the team ought to form one of the best teams which has ever represented the city. In the last period goal tender "Bob" Phillips had but one stop, while in the first, there were only three that taroed near the goal. The score is as follows:

Canadian club	Goddard
Man, rw.	lw. Lynch
Willey, c.	Haskett
A. Boyea, c.	Griffin
Bartlett, lw.	Miner
Phillips, Keefe, ep.	Rogers
Sutart, p.	G. Boyea
O'Keefe, Phillips, g.	Carr
Goals, Mann, 3. A. Boyea 2; referee, Kinney; timer, Smith. Time, two 20-minute periods.

### General Sporting Notes.

When Hugh Duffy and Tom McCarthy worked their hit and run tactics back in the early 90's, it was a long time before the opposing teams were on to their game. John M. Ward, then manager and captain of the Giants, was the first man to discover their scheme. One followed the other in batting and the one who reached first would bluff a steal so as to see who would cover second base, and then the other batter would slam a hit through the vacant place in the field. Nearly always they could work this scheme, and in doing this the man on first would get to third and draw a throw, so as to let the other fellow make second base. Duffy and McCarthy were creative players.

Action independent of the United States Golf association on the definition of an amateur golfer will be taken by the Western Golf association under the new officers and board of directors elected Saturday evening at the annual meeting of the Western association in Chicago it was announced yesterday. It is said that in some circles a report is circulated that a movement might lead to a rupture between the leading golf bodies in America and eventually result in the formation of a new organization, which would attempt to become the supreme court of golf in the United States. No sooner had the outgoing body of directors gone out, but the incoming board formulated a positive definition for an amateur. A plan for organizing a new national body is under discussion and some such object may be tried out in the near future.

Baseball fans, who watched with admiration the great pitching feats of Albert Pierroti, the Washington & Lee all-round athlete, when he pitched in Barre last summer for the Italian Athletic club against the Burlington team of the Vermont state league, may be interested in a clipping from a Boston paper which reads as follows: "They tell us that Albert Pierroti, the Everett young man, who plays center and is captain of the 1917 football eleven at Washington & Lee university, has something on all other all-round athletes. Not only is Pierroti captain of the football team, but he is captain of the basketball team, is pitcher on the baseball nine, holds the shotput record of his college and is one of the best boxers, if not the best, among his fellow students. But the marvel is he has the courage to also be an expert in croquet work, a real star, if we may judge from a photographic reproduction we have seen of some of his handiwork. 'Ay's' nerve and well-known ability to properly resent undue kidding, because he is an adept at a feminine art, permits him to do his crocheting in peace. A grat-

ifying thing to learn about young Pierroti's life at Washington & Lee is that he is a first-class student, especially in the sciences. The proof of the fact is that he is an instructor in chemistry in the college."

### Grammar vs. German.

A Pike county teacher who asked one of her pupils to purchase a grammar, received the following note from the little girl's mother: "I do not desire that my Matty engage in grammar and I prefer her engage in more useful studies and can learn her to write and speak proper English. I went through two grammars and can't say as they did me no good. I prefer Matty to engage in German, and drawing and vocal music on the piano."
